COMMEMORATIVE FOREST PROGRAM SUBMISSION FORM

The Catfish Creek Conservation Authority (CCCA) Commemorative Forest Program was created for everyone in the community to enjoy with the lasting reminder of special occasions such as birthdays, anniversaries, or weddings, as well as living memorials to family and friends of the deceased.

A \$120.00 donation to the CCCA covers the cost of purchasing, planting, and maintaining the tree. Donations may be made throughout the year. An official tax receipt will be issued. All memorial trees are planted in the spring and will be between four and six feet in height. Tree species will be selected based on native Carolinian species available.

A map will be sent to the donor (and the person being honoured or family if requested) illustrating the location of the tree.
