Motion # 99/2016

M. Tinlin

A. Oslach

CARRIED

THAT, the Catfish Creek Conservation Authority apply to the Ontario 150 Community Celebration Program for funding under the Community Celebration and the Community Capitol Programs.

GENERAL MANAGER / SECRETARY-TREASURER'S REPORT:

a) Youth Engagement Project:

YWCA St. Thomas – Elgin has placed two (2) individuals at the CCCA for 24-30 hours per week for 22 weeks under the Youth Engagement Project. This Service Canada program is specifically designed to assist young adults (ages 15-30) in transitioning to the workforce, and / or returning to school. The work experience started on September 6th and ends during the last week of January, 2017.

b) Ontario Job Creation Partnerships Program:

The CCCA has received approval through the Ministry of Advanced Education and Skills Development to hire four (4) Lands and Water Technicians for 30 weeks under the Ontario Job Creation Partnerships Program. Applicants must have established a claim for Employment Insurance benefits or their Employment Insurance benefit period ended within the past three (3) years. Work placements start on October 3rd, 2016 and conclude on April 30th, 2017. Funding for the project will total approximately \$76,000.00 for wages and support costs.

c) Steelway Building Systems 40th Anniversary:

The General Manager / Secretary-Treasurer informed the members that the CCCA received an invitation from our neighbours at Steelway Building Systems to attend their 40th Anniversary Open House on Thursday September 15th, 2016. The Official Ceremony at the Springwater Facility will start at 2:00 p.m.

UNFINISHED BUSINESS:

None.

CHAIRPERSON'S / BOARD MEMBER'S REPORT:

- Chairperson Martyn asked whether the vandalism at the Poplar Hill Campground Washroom was still occurring. Staff replied that the problem seems to have subsided since the initial incident.
- Member Tinlin suggested that the Board should consider having a discussion on succession planning at a future meeting.

NOTICE OF MOTIONS / NEW BUSINESS:

None:

CORRESPONDENCE:

- a) Not Copied:
 - Correspondence Register for August, 2016.
- b) Copied:
 - Conservation Ontario a copy of the comments submitted by the Association of Municipalities of Ontario to the Minister of Natural Resources and Forestry regarding the Conservation Authorities Act Review.

Motion # 100/2016

A. Oslach

A. Vanhoucke

CARRIED

THAT, the Copied Correspondence and the Correspondence Register for August, 2016, be noted and filed.

\sim	REBEIT	TEE	OF	THE	WHOL	┏.

There were no personnel, property, or legal matters to be discussed in the Committee of the Whole.

NEXT MEETING / ADJOURNMENT:

The next meeting of the Catfish Creek Conservation Authority will be held on Thursday, October 13th, 2016, commencing at (10:00 a.m.).

Motion # 101/2016

A. Oslach

A. Vanhoucke

CARRIED

THAT, the Full Authority be adjourned at (10:50 a.m.).

General Manager / Secretary -Treasurer

Authority Chairperson

Minutes Of The Meeting Of The Catfish Creek Conservation Authority Interview Committee

Wednesday, September 28th, 2016

Meeting # IC 05/2016

PRESENT:

Arthur Oslach

Committee Member

Town of Aylmer

ABSENT:

Rick Cerna

Chairperson, Personnel / Finance Committee

Township of Malahide

STAFF:

Ed Pietrzak

Conservation Areas Supervisor

The meeting was called to order at (9:45 a.m.).

Disclosure Of Pecuniary Interest:

No one had a pecuniary interest to disclose at this time.

The purpose of the meeting was to interview applicants for the four (4) Water and Lands Technician positions through the Job Creation Partnerships Program with the Ministry of Advanced Education and Skills Development.

At the conclusion of the interview process, the Interview Committee selected the following list of names for the four (4) available positions.

- Michael Bennett
- Chris Baiden
- · Spencer Sills
- Mike Kenny

Two (2) of the four (4) successful applicants declined the job offer when contacted following the interviews for various reasons.

The meeting was adjourned at (3:00 p.m.)

Arthur Oslach Committee Member REPORT FA 52/2016: To The Full Authority

FROM: Conservation Areas Supervisor

Resource Planning Coordinator Water Management Technician

SUBJECT: Monthly Staff Reports

DATE: October 5, 2016

Conservation Areas Supervisor, Ed Pietrzak

Current Activities:

- Assisted with the setup and delivery of Marsh Quest held at the Yarmouth Natural Heritage Area on September 21-29, 2016. A total of 533 Grade 4 students from 12 schools participated in the program.
- Provided orientation and health and safety training for the students on the Cooperative Education Placement Program and the participants on the Job Creation Partnerships Program.
- General maintenance and operations at the various Conservation Areas.
- Hosted the Carolinian Forest Festival being held at the Springwater Conservation Area on October 4-6, 2016. The Public Day will be held at the Jaffa Environmental Education Centre on Saturday, October 8th, 2016.
- Woodlot management activities.

Upcoming Activities:

- Working with the students from the East Elgin Secondary School Environmental Leadership Program to undertake a number of tree planting and woodlot management projects at the Yarmouth Natural Heritage Area.
- Preparing to deliver fall Environmental Education Programs at the Springwater Conservation Area.
- Winterization of all Springwater camping facilities...
- Regular duties as assigned.

Resource Planning Coordinator, Tony Difazio

Current Activities:

- Completed the restoration of a wetland on the east side of the main branch of Catfish Creek at the Yarmouth Natural Heritage Area;
- Planning for the removal of dead ash trees in the Ward McKenna Conservation Area in the Town of Aylmer;
- Supervision and monitoring of several stewardship projects throughout the watershed; and,
- Provided The Aylmer Express with background information for a series of articles on Ducks Unlimited Canada and the Aylmer Ducks Unlimited Committee, celebrating its 35th anniversary this year.

Upcoming Activities:

- Complete stream restoration projects at the Yarmouth Natural Heritage Area;
- Assist with this year's 'Carolinian Forest Festival' at the Springwater Forest;
- Assist with the supervision of Environmental Leadership Program (ELP) students with several restoration projects on private and CA lands; and,
- Regular duties as assigned.

Water Management Technician, Peter Dragunas

Current Activities:

- Continued 2016 Ontario Low Water Response monitoring and evaluation of 2016 Low Water Response protocols / thresholds.
- 2017 flood criteria and criteria threshold revisions as a result of yearly review and updates, to better assist in the early identification of flood threats and flood forecasting.
- Source Water Protection Communications Teleconference.
- Trees Ontario 2017 landowner tree planting site meetings.
- Yarmouth Natural Heritage Area tree planting / land revitalization.
- CCCA 2017 tree planting season field assessment and landowner meetings.

Upcoming Activities:

- Sounding at Port Bruce.
- 2016 / 2017 flood criteria and threshold reviews.
- Continued site visits with landowners to discuss / assist with land reclamation and rehabilitation for the CCCA 2017 Tree Planting Program.
- Regular duties as required

Recommendation:

That, Staff Reports for the month of September, 2016, be noted and filed.

Ed Pietrzak

Conservation Areas Supervisor

Tony Dirazio

Resource Planning Coordinator

Peter Dragunas

Water Management Technician

\$ 33,617.70

RECOMMENDATION:

THAT, Accounts Payable totalling \$33,617.70 , be approved for payment as amended in Report FA 54 / 2016.

Susan Mann,

Financial Services Coordinator

REPORT FAS5/2016 : To The Full Authority

FROM : Tony Difazio, Resource Planning Coordinator SUBJECT : Approved Section 28 Regulation Applications

DATE : October 7, 2016

PURPOSE: To outline the 'Development, Interference with Wetlands & Alterations to

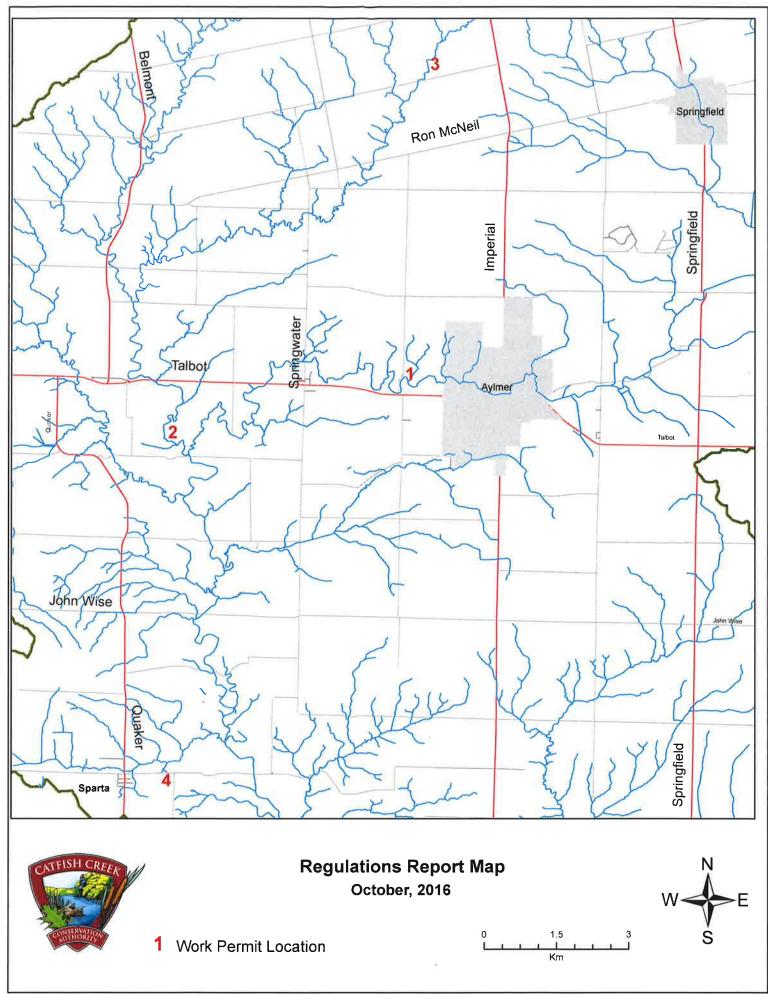

Watercourses' applications approved by staff in July, August & September,

2016.

PERMIT NO.	LOCATION	PROPOSAL	DATE ISSUED
Site 1 FR-06-16	Lot:78; Conc.: NTR; Township of Malahide	* This proposal involves the stabilization of approximately 100m of eroded creek bank (Catfish Creek) along the east side of Rogers Road, just north of Highway #3; *The project has been designed by CJDL;	July 25, 2016
Site 2 FR-07-16	Lot: 23; Conc.:8; geo. Township of Yarmouth	*The owner is undertaking an erosion control project along a 100m portion of the West Branch of Catfish Creek; * The owners of 46818 Brouwers Line are also installing a 'low flow' cattle crossing;	August 26, 2016
Site 3 FR-08-16	Lot: 15; Conc.:11; geo. Township of S. Dorchester	*The owners are installing a new bridge crossing of the east branch of Catfish Creek for agricultural equipment; * The owners of 48848 Mapleton Line are also removing the existing 'low flow' crossing;	September 2, 2016
Site 4 FR-09-16	Lot: 23; Conc.:3/4; geo. Township of Yarmouth	* The Municipality of Central Elgin is replacing/twinning the existing culvert crossing of Sparta Line (200m west of Chestnut Grove Line; * The new 40m X 750mm diameter steel pipe is located on a tributary of Mill Creek, just east of Sparta;	October 3, 2016

RECOMMENDATION: THAT, the Full Authority receive the staff approved Section 28 Regulation Applications Report FASS2016, as information.

Tony Difazjo, Resource Planning Coordinator

REPORT FA 56 / 2016: To The Full Authority

FROM: Kim Smale, General Manager / Secretary – Treasurer

SUBJECT: Conservation Ontario Council Meeting

DATE: September 27, 2016

Purpose:

To update the members on the business items discussed at the Conservation Ontario Council meeting.

Discussion:

The General Manager / Secretary-Treasurer attended the Conservation Ontario Council meeting held at the Black Creek Pioneer Village in Toronto on September 26th, 2016. Highlights of the meeting included:

a) Conservation Authorities Act Review:

The Honourable Kathryn McGarry, Minister of Natural Resources and Forestry spoke at the meeting and expressed strong support for the Conservation Authorities. She provided an overview of the Conservation Authorities Act review process to date and mentioned her intention to create a multi-stakeholder Service Delivery table to consider the feedback received by the Ministry of Natural Resources and Forestry on the five (5) proposed priorities for updating the Conservation Authorities Act.

b) 2017 Operating Budget:

Council adopted the proposed 2017 Operating Budget which showed an overall increase from \$1,171,000.00 in 2016 to \$1,217,000.00 in 2017. The increase represents an adjustment in the CA Levy of approximately 4.0 percent. As a result, the CCCA's 2017 Levy Apportionment will be \$18,457.00, an increase of \$675.00 over 2016. A breakdown of the 2017 Levy Apportionment for each Conservation Authority is attached for your information.

c) 2017 Workplan:

Please find attached a copy of the proposed 2017 Conservation Ontario Workplan that was adopted by Council to align with the goals of the 2016-2020 Strategic Plan.

d) John Cottrill, General Manager of the Grey Sauble C.A. and Steve Knechtel, General Manager of the Cataraqui Region C.A. were formally recognized by the Chair of Conservation Ontario for their years of service and upcoming retirements from their respective Conservation Authorities.

e) Discussion Papers:

Council approved submissions on the following topics currently posted on the Environmental Bill of Rights registry.

- Conservation Authorities Act Review;
- Great Lakes Nearshore Framework;
- Federal Infrastructure Funding Program Design-Phase 2;
- Coordinated Land Use Planning Review;
- Development of a Guide to Conservation Authority Permits on Agricultural Land;
 and
- Sustaining Ontario's Agricultural Soils; Towards a Shared Vision.

Recommendation:

THAT, Report FA 56/2016, be noted and filed.

Kim Smale

General Manager / Secretary – Treasurer

Proposed 2017 Annual Detailed Workplan for Conservation Ontario

Priorities:

- 1. Public Affairs and Advocacy— be the collective voice on matters of interest to all CAs, influencing policy and programs that impact CA business and advance integrated watershed management; engage stakeholders strategically
- **2. Science and Policy** aggregate, manage and disseminate shared knowledge to develop and advance science and policy
- **3. Member Services** CO will provide value-added, shared services to members, in such areas as purchasing, training and communications
- **4. Governance** continuously improve the function of internal governance to deliver more effective and engaging participation for Members

PUBLIC AFFAIRS AND ADVOCACY						
Activities - 2017	Benefits to Conservation Authorities					
 CA Act Review Continued advocacy with provincial ministries re CAs multi-ministry role Working with MNRF staff to make legislative changes (TBC) Advocate through other provincial policy and legislative reviews to reinforce amendment requests to CAA (e.g. Coordinated Land Use Planning Review, Ontario Wetland Strategy, Climate Change file) Stakeholder Relations e.g. Joint Submissions with AMO, OHBA, BILD, OFA and CELA 	CA priorities will be advocated and changes to CA Act Review will define a sustainable future for CAs.					
 Queen's Park Day Showcase CAs and their work to provincial representatives 	 The multiple benefits of the work of CAs will be showcased at the Legislature. Opportunities for CAs (GMs and board members) to network with MPPs and key Ministers 					
Provincial and Federal Pre-Budget Consultations and Presentations (Focus on Flood Business Case and Impacts of	 Recognition of CA role in key ministerial goals and objectives and 					

Climate Change)	funding opportunities for CAs will be sought
Great Lakes/St. Lawrence Participation at Great Lakes Executive Committee, five Annex Sub- Committees Participation on Great Lakes Guardian Council	 The role of CAs as watershed managers will be profiled and messaged at meetings and funding opportunities for CAs will be sought CAs knowledge, expertise and data will be acknowledged as critical to success of Great Lake goals
 Source Water Protection Support CAs with plan implementation Joint Advisory Committee meetings with ADM and MOECC staff to advocate for collectives goals Further Development of Stewardship and First Nations Proposals Continued communication efforts to profile role of CAs in delivering SWP Continued support for SWP information management 	 Roles and responsibilities for CA role in SWP implementation will be acknowledged and solidified Funding to support implementation will be secured Funding for stewardship activities will be advocated Quality of interactions with First Nations enhanced by sharing CA expertise
 Municipal Engagement Engage with municipal organizations through meetings and events/sponsorships e.g. AMO, FCM, ROMA, OGRA Collaborative positioning on key provincial priorities e.g. CA Act Review 	 Value of CA programs and services is promoted and valued by the municipal sector Funding opportunities are identified Municipal voice strengthens collective positioning
Flood Business Case Promote critical role of CAs in flood management and mitigation and identify funding opportunities	 Funding Support through National Disaster Mitigation Program (Public Safety Canada) and potentially Infrastructure Canada and Provincial Infrastructure programs Funding support from Ministry of Natural Resources and Forestry; including WECI Potential for funding from private sector
Business Case - Economic Value of CAs – continued research	Solidified financial arguments can be made in advocacy and communication efforts for use by CO and CAs
Stakeholder Engagement Continued relationship-building and co-ordinated strategies with key	 collective efforts (program, funding, etc.) are realized support from other stakeholders for CA

stakeholders

- File-specific engagement will be warranted by business case (e.g. wetland strategy with Ducks Unlimited; Mood Walks with Canadian Mental Health Association; Great Lakes nutrients with Agricultural, municipalities/GLSLCI, and ENGOs; Flood Business Case with Municipalities and Private Sector, IBC, ICLR, Universities; Climate change with Forests Ontario, Ducks Unlimited Canada, Ontario Nature, Nature Conservancy, CO/OFA Memorandum of Understanding).
- Improve quality of interactions with stakeholders by sharing information about CA programs
- Latornell stakeholder education and networking

programs

SCIENCE AND POLICY

Activities - 2017

- Represent or coordinate CA voice at policy and science tables for:
 - -CA Act Review
 - -Wetland Strategy
 - -Coordinated Provincial Plan Review MOECC/MNRF watershed planning guidelines (tbc), associated Systems mapping
 - -Climate Change Cap and Trade and Adaptation Strategy
 - -Soil Health Strategy
 - -Low-Impact Development Guidelines and Green Infrastructure
 - -Great Lakes Nearshore Framework proposed Advisory Group
 - -Lake Erie Domestic Action Plan and Nutrients Working Group
 - -Drainage Act S.28 Regulations Team (DART)

Benefits to Conservation Authorities

- CA programs and information are recognized and become critical to the delivery of federal, provincial and regional initiatives and therefore funding and partnership opportunities may result
- Reinforce and protect role of CAs in Integrated Watershed Management within provincial plans and policies

Develop an Ontario story	programs are helping to maintain and improve surface and groundwater quality, forest conditions, etc. Advocacy for continued support for CA science and stewardship
Implementation of Ecohealth Collaborative Continuation of healthy hikes	 Showcases how CA services and programs contribute to a healthy society
Co-ordination Support for provincial monitoring programs Provincial Groundwater Monitoring Program, Ontario Stream Sediment Project, Ontario Biomonitoring Network	 Efficiencies in co-ordination and information management of provincial monitoring programs
Support for Ontario Partnership Environmental Network (OPEN) Portal New – collection of CA climate change adaptation and mitigation initiatives	 Provincial datasets are available to CAs Advocacy for CA climate change initiatives
EBR/other comments	 CAs are made aware of EBR postings and collective positioning is co- ordinated by CO or at least circulated via Weekly Update emails as FYI

MEMBER SERVICES	
Activities - 2017	Benefits to Conservation Authorities
Statistical Survey continued support to assist the CAs in filling out the on-line survey	 CO is able to provide members with collective statistics of the work of CAs that they can use in their advocacy and communication efforts use information for CO collective advocacy purposes
Professional Development and Training Scoped review of current CO training deliverables and costs in preparation for development of a training strategy Support development and implementation of workshops, webinars and other education/outreach initiatives	 members have consistent and accessible training for priority CA programs Professional development needs of CA staff are met; members have access to education/outreach initiatives that support their CA programs

 (dictated by priority files e.g. Planning and Regulations, Federal Fisheries and Oceans Canada Drainage Guide training) Complete CAU 2016-2017 delivery of executive development program; focus groups and continuous improvement Regulatory Compliance Committee – design of next level of Provincial Offences Officer's training 	 CA senior staff are provided with the skills to effectively manage overall operations and programs within their CA as succession takes place Provincial Offences Officers effectively represent CAs and discharge their duties on the front-lines
 Bulk Purchasing CO Insurance and Benefits Committee Software - (e.g. Environics Analytics) MPAC digital land use, Teranet Geowarehouse, ESRI 	 Costs savings Consistent program use across the collective
 Information Management CO will encourage collective CA databases (watershed report cards, CA Conservation Areas, SWP assessments) CA Maps Provincial orthophoto acquisition project Examine efficiencies in data collection, storage and analysis 	 CAs have integrated information management systems for priority areas Efficiencies in information management capacity can support CA activities, promote the value of CAs, and enable consistency in information sharing between CAs and partners
Member Communication –CO Weekly Updates for CAs covering several topics	 Number of CO e-mails is reduced, yet members are well informed of programs, funding opportunities and initiatives being led by others
New and Improved Website with a focus on Members pages	 Information applicable to the collective will be more readily discoverable Best management practices can be more easily shared amongst CAs Facilitates information sharing and networking in this important business area
 Corporate Communications CO website, annual report, fact sheets, mini websites, briefing notes, toolkits, messaging, etc. 	 CAs can use for their own advocacy and outreach efforts Ensures consistency re messaging
Communicating Collective CA Priorities – CO General Manager and staff attend and make presentations at meetings including CA Annual meetings, CA Board meetings, CA staff	 Provides information to CA Boards and staff on broader strategic initiatives being undertaken on behalf of the collective and the value/benefits

meetings	received from CO strengthens the network of CAs; informs CAs
Preliminary evaluation of the delivery method and effectiveness of Latornell, including the sustainability of the funding allocation to CO	CAs will be able to evaluate the benefits of their participation
Social Media – increase use of social media, including campaigns to profile work of CAs (1-2 campaigns per year)	 A broader audience will be aware of CA activities

GOVERNANCE	
Activities - 2017	Benefits to Conservation Authorities
Continuous improvement to council format – identify, review and implement any changes identified via meeting evaluation forms (e.g. more breakout sessions/workshop style agenda items, code of conduct, report more effectively on CO activities)	 Opportunity for members to provide feedback and direction to CO staff regarding council meetings and their effectiveness Council functions more effectively and members are engaged in meaningful and strategic discussion
Explore and Assess new formats such as video conferencing	Improved access for participation
General Managers' meeting - 2	 Provides an opportunity for General Managers to share information and best management practices, debate and discuss areas of common interest or concern with peers
Create Team Building opportunities for Members	 The CO collective will become stronger and relations amongst CAs improved
Explore feasibility of recreating an annual policy conference	 CAs will be able to advocate and discuss policy initiatives that are most relevant to them
Review existing committee relevance	 Input from various regional areas will be recognized Improved committee functions will ensure effective use of CA staff time
Report more effectively on CO activities – continued improvement	 Members have improved understanding of the work /value of CO

REPORT FA 57/ 2016: To The Full Authority

FROM: Kim Smale, General Manager / Secretary-Treasurer

SUBJECT: C.A. Statistical Survey Results

DATE: September 28, 2016

Purpose:

To provide the members with a summary of the 2015 Conservation Authority Statistical Survey.

Discussion:

Each year, Conservation Ontario conducts a general survey of the 36 Conservation Authorities in order to collect information in the following five areas:

- General Information
- Financial
- CA Foundations
- Landholdings
- Programs / Services / Activities

The information collected through this survey is compiled and used by Conservation Ontario for advocacy and communication purposes. A copy of the compiled information is sent to each of the 36 Conservation Authorities and the Ministry of Natural Resources and Forestry.

A summary of the results of the 2015 Statistical Survey is attached for your reference and information. Please note the Municipal Levy column in the 2015 Financial Report that shows the CCCA with the lowest Municipal Levy in the province by \$72,855.00

RECOMMENDATION:

THAT, the 2015 Conservation Authority Statistical Survey Summary of Results attached to Report FA 57/2016, be received as information at this time.

Kim Smale

REPORT FA 58 / 2016: To The Full Authority

FROM: Kim Smale, General Manager / Secretary – Treasurer

SUBJECT: Big Picture Collaborative

DATE: October 5, 2016

Purpose:

To consider providing the Carolinian Canada Coalition with a letter of support for the Big Picture Tracking Collaborative Project.

Discussion:

The Catfish Creek Conservation Authority (CCCA) received an e-mail on October 4th, 2016, requesting our support in principle for Carolinian Canada's Big Picture Tracking Collaborative Project.

The attached brief will provide the members with background information about Carolinian Canada and the proposed collaborative project itself.

Recommendation:

THAT, the Catfish Creek Conservation Authority support Carolinian Canada's Big Picture Tracking Collaborative Project in principle and agree to sign on as a member of the collaborative.

Kim Smale

General Manager / Secretary – Treasurer

Tracking the Big Picture to Leverage Natural Networks

A focused and comprehensive approach to natural infrastructure is urgently required for ecosystem, climate and community health. In Ontario's far south, Carolinian Canada partners are poised to reverse the trend of habitat loss but we lack a critical tool. A multi-stakeholder monitoring framework is needed to adaptively manage and connect diverse leaders around priority objectives.

The Big Picture

The Carolinian Life Zone is the most biodiverse and threatened ecoregion in Canada and Ontario. With over 150 species at risk, some of the best agricultural resources, and lowest levels of protected land (<3%), the challenge is large. However, Carolinian Canada's Big Picture strategy is widely recognized and adopted as a leading edge tool for collective conservation on a multi-use working landscape. Major conservation groups in the region point to the Big Picture as a critical climate change strategy.

Ecosystem Recovery

Our recently completed network of Conservation Action Plans (CAPs) (Jalava) coordinate expertise and efforts of **150 partner groups, First Nations and municipalities** for priority objectives that together address **ecosystem recovery** across 80% of this ecoregion, centered on **15 biodiversity hotspots**. (Kraus). This program is the largest, most comprehensive active ecosystem recovery plan in Canada and Ontario in terms of biodiversity and people.

Challenge

Our Big Picture vision and CAPs have generated thousands of new conservation actions on the landscape. However, our Big Picture Discussion paper (Jalava) shows that this ecoregion needs to double the existing natural infrastructure to meet recommended targets for healthy landscapes. Current models predict that within 50 years, there will be significant biodiversity shifts. Yet few programs target minimal landscape health or function to mitigate or adapt to such shifts.

Gaps

Current conservation work is taking us in the right direction but it needs to be accelerated to match the urgency. Specific gaps and barriers exist in our collective critical path towards healthy landscapes:

- a. Regular collective strategy updates Our action plans (CAPs) are developed on a system that provides for efficient on-going updating but an adequately-resourced coordinating hub is required. Rapid shifts in knowledge, research, technology and communication require continual attention.
- b. Large-scale ecoregional monitoring Over 100 different monitoring programs occur in the region but there is no program that pulls together a clear, comprehensive overview. The monitoring and reporting around biodiversity targets and environmental policies is too often patchwork and incomplete, and does not adequately address landscape-scale trends or local realities.
- c. Strong support for community leaders and decision-makers accessible tools are needed in all jurisdictions to make a compelling case for nature, link to priority objectives for their communities and help shift cultural norms.
- d. Engaging tools for landowners to measure their contributions to landscape health Informed, strategic landowner stewardship is critical on this working landscape, which is 98% privately-owned. Two-way information sharing is effective, efficient and feasible on a large scale.

Next Steps

Carolinian Canada's ecosystem recovery network of 150 partners is now ideally positioned to reverse the trend of habitat loss in the ecoregion by building on the success of the Big Picture strategy.

However, the timeline is shifting. The Big Picture was initiated with an understanding that change could come slowly over generations. Given new climate models and environmental health crises, this work needs to be accelerated significantly.

The next critical step towards healthy landscapes requires a strong coordinating hub to:

- a. Update the **Big Picture strategy to** identify shared targets for natural infrastructure, habitat, ecosystems and biodiversity in the face of **climate change** and growing community links to health and economy.
- b. Develop a **multi-stakeholder monitoring** system using new technology (e.g. live data) to track progress and adaptively manage Big Picture and local strategies.
- c. Use this platform to meaningfully engage diverse sector leaders and more public and private partnerships around growing and showcasing natural infrastructure for health and economy.
- d. Develop a **recognition system** to incentivize and assist more target sectors to grow and monitor habitat.
- e. Provide data for Ontario's State of Biodiversity reporting and other larger scale monitoring programs.
- f. Assist other regions of Ontario interested in developing a similar model.

Leveraging networks

We don't work alone. We have a well-recognized, neutral networking framework and a large community of partners working together with significant actions underway. Continuing this large scale effort will guide thousands more targeted actions to finally reverse the trend of habitat loss in this highly threatened region.

The current bottleneck in the critical path towards a healthy ecoregion is the need for continual evaluation and adaptive management of Big Picture targets and CAP objectives for over 5,000 allies. We now have access to leading edge tools to collect and provide key data so partner efforts can be adapted annually to achieve Big Picture goals.

Addressing this barrier will allow our network to move forward with multiple related steps:

- We will be able to maintain strong, outcome-based relationships with all partners and strategically engage diverse sectors with a focus on Big Picture targets.
- We will engage in on-going communications, monitoring, reporting, local updating and facilitating to assist partners to respond to rapidly shifting progress, challenges and opportunities on the landscape.
- We will celebrate and bring public attention to the progress towards healthy landscapes across the Zone.
- A large scale multi-stakeholder monitoring program will provide crucial data to inform existing conservation programs and shape new ones to achieve Big Picture goals.

Together our network can collectively deliver and monitor a locally customized, effective approach to clean air, water, soil and healthy ecosystems in the face of climate change at a feasible scale.

With your support and working on an ecoregional basis with our community of partners can start to increase habitat in this region after centuries of loss. In doing so, we would be in a much stronger position to close the gap to healthy landscapes.

Scoping Workshop

In 2017, we are proposing to hold a workshop in partnership with a collective of interested groups to explore the need for a multi-stakeholder monitoring system of natural infrastructure, habitat, ecosystem and biodiversity targets in Carolinian Canada.

Proposed workshop objectives:

- Bring together relevant local, regional and provincial stakeholders (representing municipal, First Nations, landowners, agricultural, conservation, economic, health and recreation sectors)
- Explore the opportunities for a provincial approach to natural infrastructure
- Develop a common understanding on the current state of environmental and biodiversity monitoring
- Brainstorm and identify areas and opportunities for improvement in monitoring
- Identify a path forward towards establishing a multi-stakeholder monitoring program

Invitation

We invite partner groups to help launch this initiative by signing on with support in principle, in order to leverage more partners and resources. As a launching partner you are invited to

- Participate in the scoping workshop
- Participate on the Science Advisory Committee (SAC) that will help steer the project
- Link to data as the program unfolds

We appreciate your consideration and look forward to discussing this concept with you.

Michelle Kanter, Executive Director 519-

519-280-5268 mkanter@carolinian.org

Jarmo Jalava, Director of Ecosystem Recovery 519-271-7627 jjalava@carolinian.org

Don Pearson, Chair 519-354-7310 don.pearson@ltvca.ca

ackground- About Carolinian Canada

The **Carolinian Life Zone** is home to an incredible array of wildlife and rare species, unique habitats and globally significant natural spaces.

The Carolinian Canada Coalition mission is to advance a conservation agenda for the Carolinian Life Zone.

Since we started our work in 1984, the loss of **habitat** has slowed and is now approaching 0 in some portions of the ecoregion, but losses continue in others. It is impossible to know what state the ecoregion would be in now, if our network did not work together for over 30 years.

Readiness

- We have the plans, partners and priority objectives in place for coordinating the Big Picture and developing a large-scale monitoring program that links on-ground work to provincial and global goals.
- We are part of the international network of conservation action planning known as "Open Standards" that can provide training, resources and technology to monitor and update CAPs efficiently.
- We are the longest running ecoregional program in Ontario with 30 years of networking experience and are widely recognized as a neutral gathering place for diverse land management sectors to work on a joint agenda for healthy landscapes.
- Our CAPs are linked with major conservation efforts in the zone by hundreds of local to international groups.
- Our Go Wild Grow Wild program is reaching out to new sectors and recruiting new allies. We need a
 robust zone-wide framework to meaningfully engage them linking existing partners and programs
 across jurisdictions, habitats and properties.
- We are developing collaborative ecosystem recovery programs for rural, urban, trail and corporate landowners, First Nations, municipalities and youth groups to translate CAP objectives to on-ground action.
- We are a member of the Ontario Biodiversity Council and are committed to working with them for biodiversity in the Carolinian Life Zone and beyond.

Collective goal setting works

Carolinian Canada Coalition has used a collaborative approach for over 30 years.

- 1985: our network set a collective goal of protecting 38 critical natural areas. We supported partners to protect over 15,000 hectares, and 300 landowners signed natural heritage stewardship agreements.
- 2001: our network set a collective goal of a connected network of over 110 natural areas. Our Big
 Picture strategy has since been adopted in every part of the zone by diverse stakeholders and incorporated into some municipal plans.
- 2010-2015: our network collectively identified 130 priority ecosystem recovery objectives, and 150 groups and municipalities officially committed to implementation. 80% of these objectives were in progress in 2014. Securing funding to continue monitoring and coordinate implementation has, however, been an ongoing challenge.
- 2016: We cannot manage what we do not measure. Our network is calling for a progress report to inform existing programs and an updated strategy.

Background - About this Project

Proposed Stakeholders

Steering:

- CCC Board & Science Advisory Committee (SAC) 40 experts / leading conservation groups engaged
- Ontario Biodiversity Council presentation scheduled

Habitat and Data:

- NHIC Data center data sharing agreement in place
- 150 CAP Partners active in strategies, monitoring, implementation
- Conservation Authorities, Municipalities and First Nations Active partnerships, engage more
- Citizen science programs build formal partnerships

Landowner Action, Recognition and data sharing:

- Landowner Leaders program rural outreach, engage more landowners and landowner groups
- Wildlife Habitat Council corporate outreach, engage more corporate landowners
- World Wildlife Fund Canada urban outreach, engage more gardeners
- York University app development
- Grow Wild Bootcamps youth outreach, to engage more schools in citizen science
- Go Wild Grow Wild exhibitors and attendees –to engage more adventurers / gardeners / health sector

Proposed Activities

- 1. Update the Big Picture strategy to incorporate natural infrastructure targets for climate change.
 - a. Formalize university and cross-sector partnerships including health, economy, agriculture
 - b. Coordinate working group
 - c. Network consultation surveys, workshops, webinars
- 2. Develop a **multi-stakeholder monitoring** system using new technology and key metrics to track progress of Big Picture ecosystem targets for the region.
 - a. Identify key metrics and model with SAC and network consultation partially complete
 - b. Research related monitoring programs and global examples
 - c. Monitor CAPs Acquire Open Standards software; Training; 2-way data sharing with CAP partners
 - d. Analyze satellite imaging data build GIS capacity for on-going reporting
 - e. Compile and synthesize results of watershed and municipal monitoring
 - f. Establish partnerships with citizen science programs and other monitoring programs
 - g. Analyze and report: identify gains, losses, gaps Profile successful models
- 3. Develop a reporting system to engage community leaders in Big Picture ecosystem targets
 - Explore feasibility and consult on best methods of reporting
 - b. Develop reporting tools (e.g., on-line Big Picture Report Card, app, Mayors updates)
- 4. Develop a **recognition system** for green people to incentivize and assist more allies and target sectors to sustainably participate together to grow natural networks.
 - a. Support peer outreach programs to engage leaders in target audiences including: rural and corporate landowners in biodiversity hotspots / gardeners, youth and health sectors / First Nations, municipalities across the zone / others as identified through consultation
 - b. Explore feasibility for zone-wide recognition system to increase uptake
- 5. **Assist other regions** of Ontario interested in developing a similar model. webinars, workshops, roadshow share models, best practices, lessons learned, link to province-wide reporting

Honourable Kathryn McGarry Minister of Natural Resources and Forestry Suite 6630, 6th Floor, Whitney Block 99 Wellesley St. W., Toronto, Ontario, M7A 1W3

Dear Minister McGarry:

On behalf of Conservation Ontario I would like to sincerely thank you for taking the time out of your busy schedule to meet our Conservation Authority members and bring remarks and good news regarding the Conservation Authorities Act Review. I would also like to extend gratitude to Ministry of Natural Resources and Forestry staff who presented preliminary feedback from the EBR submissions within such a short window following the EBR closing date. Your presence and participation was well-received by our members.

We were most delighted to hear about your decision to create a multi-stakeholder Service Delivery table. As you may know, Conservation Ontario's submission requested the creation of such a table to address streamlining and other issues related to service standards. We consider this to be an important work plan activity that may result in updates to MNRF's 2010 *Policies and Procedures for CA Plan Reivew and Permitting Activities*. Our members are respectfully asking that a publicly announced Terms of Reference be created for this table and that 3-5 key priorities be identified with deadlines for resolution and/or implementation. Additionally, Conservation Ontario would be pleased to provide feedback on a list of proposed key priorities and to work with you to identify CO/CA representatives for this table.

Once again, we would like to thank you for your enthusiasm in support of the Conservation Authorities' role in integrated watershed management and we look forward to working with you and supporting you in promoting the positive partnership that exists with CAs, MNRF and the Province at large.

Sincerely,

Dick Hibma, Chair
