(Please include 911#)

Town/City: _____ Postal Code: _____

Phone Number: _____ Email Address: _____

Municipality: Central Elgin Malahide St. Thomas Southwold

Species Selection

Greening Communities offers landowners the opportunity to purchase **a minimum of 20 bareroot tree seedlings** to plant on their property. **Species must be selected in multiples of 10.** Orders of over 200 trees can be done through existing Conservation Authority programs. Trees have been preordered and stock is limited. Orders are taken on a first-come, first-served basis.

Tree Species (bareroot seedling)	Size (cm)	Cost/ Tree	Quantity (min. of 20 trees, 10 trees/species)	Total
White Spruce	30+	\$2.00		
Norway Spruce	40+	\$2.35		
White Pine	40+	\$2.35		
White Cedar	30+	\$2.00		
Red Maple	60-90	\$2.90		
Sugar Maple	60-90	\$3.25		
Red Oak	60-90	\$3.50		
Tulip Tree	60-90	\$3.50		
White Birch	60-90	\$2.25		
Eastern Redbud	60-90	\$3.25		
Red Osier Dogwood	60-90	\$2.25

Species Guide

Coniferous Trees	Description
Norway Spruce	<ul style="list-style-type: none"> • dark green needles and distinctive drooping branches • commonly used in windbreaks • relatively fast growing • introduced evergreen to Canada • grows to 30 m (100 ft)
White Cedar	<ul style="list-style-type: none"> • yellow to green flat scale-like foliage that turns bronzy green in winter • popular windbreak and hedge species that can be easily pruned • grows well on a variety of soil types and moisture conditions • browsed by deer • grows to 15 m (50 ft)
White Pine	<ul style="list-style-type: none"> • clusters of 5 soft, long, bluish-green needles • excellent in block plantings but not recommended for windbreaks • sensitive to road salt and air pollution • grows up to 35 m (115 ft)
White Spruce	<ul style="list-style-type: none"> • short, bluish-green needles • keeps a nice shape with a compact form • commonly used in windbreaks • slower growing than Norway Spruce • grows to 25 m (80 ft)

Deciduous Trees	Description
Eastern Redbud	<ul style="list-style-type: none"> • known for its spectacular pink spring flowers • leaves are broadly heart-shaped and branches are zigzagged • grows up to 8 m (25 ft)
Red Maple	<ul style="list-style-type: none"> • leaves are green during summer, brilliant deep red to yellow in autumn • medium growth rate, tolerates wet to dry sites • root system may get into tile drains • grows up to 25 m (80 ft)
Red Oak	<ul style="list-style-type: none"> • bristle tipped lobed leaves turn bright red in autumn • nuts used by wildlife • grows up to 28 m (90 ft)
Sugar Maple	<ul style="list-style-type: none"> • excellent shade tree with strong branches and spectacular orange-red fall colour • sensitive to salt and air pollutants • grows to 30 m (100 ft)
Tulip Tree	<ul style="list-style-type: none"> • showy tulip-shaped flowers in May/June • fast growing and has a unique leaf shape • grows up to 35 m (115 ft)
White Birch	<ul style="list-style-type: none"> • can grow as single trunks or as multi-stemmed clumps • intolerant of shade • creamy-white bark that peels easily into large sheets • grows up to 25 m (80 ft)

Wildlife Shrubs	Description
Red Osier Dogwood	<ul style="list-style-type: none"> • low shrub with bluish-white autumn berries that are enjoyed by birds • attractive red stems are striking against winter landscape • grows on damp sites and roots help to stabilize eroding soils • grows to 2-3 m (6-10 ft)
